PROFESSIONAL SUMMARY

I'm a passionate developer focused on building responsive web and backend applications using Python, SQL, AI, and modern technologies. I enjoy transforming real-world ideas into smart, functional systems.

EDUCATION

Bachelor Of Technology- CSE(ARTIFICIAL INTELLIGENCE**)** **FINAL YEAR**
MJR College Of Engineering and Technology-Piler(AP)

Diploma- Mechanical **Jul 2018-Mar 2021**
MJR College Of Engineering and Technology-Piler(AP) CPGA-70.0%

Board Of Secondary Education **2018**
 Z P High School-Suraihagaripalli CPGA-9.5%

SKILLS

- Python
- SQL
- GITHUB
- NETLIFY

TOOLS

- VS Code
- Git and GitHub
- CMD

PROJECTS

E-Commerce Website

A fully responsive online shopping website built with front-end web technologies.

- Designed product pages, category pages, and a dynamic home page.

- Implemented cart layout, product listings, and interactive UI components.

- Added responsive navigation and modern styling for seamless user experience.

- Integrated multiple sections like featured products, offers, and testimonials.
  Source Code: Available on GitHub.

🏫 School Website

A complete school information website designed to showcase school details, events, and academic information.

- Built pages for **About Us, Courses, Faculty, Contact**, and **Admissions**.

- Implemented responsive layouts and an interactive UI.

- Added animations, image sliders, and structured academic content.

- Designed a clean and educational user interface suitable for institutions.
  Source Code: Available on GitHub

  .

Dental Clinic Website

A professional healthcare website developed for a dental clinic to help patients easily access services and appointments.

- Includes pages for **Services, Doctors, Appointments, Reviews, and Contact**.

- Added modern responsive UI with clean layouts.

- Implemented appointment forms and service detail sections.

- Designed to provide a smooth user experience for clinic visitors..
  Source Code available on GitHub.

CERTIFICATES

AI Intern Certificate – (Skilldzire)

Duration: 1 Month Internship

Completed a hands-on AI internship focusing on programming fundamentals, automation, and mini-project development under industry mentorship.

NPTEL Certificate – (Course by IIT / Government of India – NPTEL)

Duration: 12 Weeks (as per NPTEL course)

Successfully completed the NPTEL certified course, gaining strong theoretical and practical understanding of subject concepts with national-level recognition.

Python Certification – (Webvoid Technologies)

Duration: 1–2 Weeks Training

Certified for completing web development training covering HTML, CSS, JavaScript, responsive UI design, and basic project implementation.
